COMMITTEES NAMED FOR CARBON CHAUTAUQUA

A meeting of the sponsors of Carbon Chautauqua was held in the Municipal office last Thursday evening, for the purpose of getting things lined up for the Chautauqua, which will be held in Carbon this year on Friday, Saturday, Monday and Tuesday, June 7-8-10-11. Mr. L. B. Hart was elected chairman of the meeting.

The following officers were elected for this season.

President, J. A. MacDonald.

Secretary, R. J. Fairbairn.

Treasurer, H. N. Elliott.

Advertising Committee—E. J. Rouleau, H. N. Elliott, R. Wacker and P. Edwards.

Tent Committee—Messrs. J. Atkinson and Jas. Ramsay.

Ticket Committee—S. F. Torrance is to be the convener.

Village—Messrs. C. H. Nash, J. A. MacDonald and I. Guttman.

South West—Messrs. E. J. Ohlhauser, C. Schuler, John Leiske, A. Hay, Theo Tetz and R. Beckholdt.

South West—Ed. Harsch, Walter Zeigler, Adam Ohlhauser, F. Barker.

North East—J. W. Burns, J. Clayton, W. H. Levins and A. McLeod.

North West—D. Halstead, L. B. Hart, J. Atkinson, J. F. Ferguson, Geo. Tutt, Ray Bell, R. S. Shaw, S. N. Weight and W. Van Loon.

J. A. MacDonald was appointed a committee of one to look after the lighting.

W. Leitch was present at the meeting and outlined a program to put up the tent, stage, seats etc., get the piano, and do all the necessary draying, in fact everything that has to do with the tent from putting it up to taking it down, all for the sum of \$75, and after some discussion it was agreed that this offer was quite reasonable and his offer was accepted.

The committee report showed that 200 seat jacks had been built, so that those attending Chautauqua in Carbon this year will have comfortable seats with backs on them and we are sure that they will enjoy the programs much better than they did last year. The tent will have a seating capacity of about 750 persons so there will be ample room for you.

CARBON ELKS PLAN BIG CARNIVAL AND STAMPEDE

Dates to be July 1st and 2nd

On Thursday night last it was officially decided by the Elks of Carbon Lodge No. 195 that they would hold a monster Carnival and Stampede here on Monday and Tuesday, July 1st and 2nd. No definite arrangements have been made, but it is anticipated that the program will consist on the first day, of children's sports, a parade, baseball, and probably football games, etc. On the second day the program will consist principally of a monster Stampede and it is expected that a large number of riders from all points will be here to take in the big event. Good prizes will be offered in all events and this will be a great inducement for outsiders to attend.

LITTLE ITEMS OF LOCAL INTEREST

The Misses Lucy and Freda Ruff left on Sunday for a couple of weeks holiday at their home in Delta.

Born, on Thursday, May 16, to Mr. and Mrs. E. Schell, a daughter.—THE Drumheller Mail.

—The ladies of the Catholic Women's League will hold a tea and sale of home cooking in the Farmer's Exchange hall on Saturday, May 25th, from 3 to 6 p.m. Everybody Welcome.

Miss Belle Smith returned home on Thursday last from a short visit in Edmonton.

Mr. and Mrs. Geo. Tutt and family of Swalwell spent Sunday in Carbon.

Mrs. H. Hamshaw arrived on Monday night and is visiting at the home of Mr. and Mrs. H. A. English.

—Carbon Boarding House is now open with a clean and newly decorated dining room. The best of home cooked meals. Dance suppers catered to, open all Saturday evening. Phone 53.

S. F. Torrance was a Calgary visitor last Thursday and Friday.

Curtis Wiertz of the Bank of Montreal staff at Daysland, is spending a couple of weeks holidays at his home in Carbon.

Mrs. Clarence Hay and son Gordon, of Empress arrived Monday night and will spend a few days here.

The buildings of the corner Cafe and Geo. Wise's store have received a coat of paint.

A tree planting bee was held on Monday and Tuesday of this week and a number of citizens planted nearly 200 trees around town.

—Alex R. McTavish R.O. Sight Specialist, Drumheller, will make his regular monthly visit to Carbon Hotel on Thursday, May 30th. Dependable service by a graduate of Canada's leading college. Eyes tested, glasses fitted, Repairs. Prices very reasonable.

Hesketh Sparklets

The co-operation shown in the Athletic Club of Hesketh was made manifest in the fine way that everyone turned out to go to Carbon to play in the tournament there. Messrs. Thos. Heath and Harold Bingham playing in the Men's Doubles, won by a good margin against L. Poxon and J. M. MacDonald. The boys showed good form and have prospects of giving Hesketh a championship in tournaments played from time to time, if we give them good support as a community. Messrs. Brown and Hunter played an excellent game with Messrs. Braisher and Edwards, losing by a very small margin. Their only request is that these two boys will return the game in Hesketh. The singles event between H. Bingham and C. H. Nash was taken by a big margin in Mr. Bingham's favor, Harold is right in form and we

Granville Jones
Will lecture on the Third Evening of Chautauqua on "The Philosophy of a Hill-Billy."

S. J. GARRETT'S GARAGE NEW STUDEBAKER DEALER

The appointment of S. J. Garrett's Garage by the Studebaker Corporation of Canada, as local distributors for Studebaker and Erskine Cars, is being met with approval on every side.

Studebaker offers a very complete line of cars and a model at a price to suit every requirement. The new models are more beautiful than ever with graceful lines suggesting the fleetness of the sturdy studebaker engines.

CATTLE STAMPEDE SAVES TOWN IN "OPEN RANGE"

Thousands of stampeding cattle usually are a menace to human life and property, but in Paramounts Zane Grey picture "Open Range," which comes to the Carbon Theatre on Friday and Saturday, May 24 and 25, they are the salvation of an entire village. When Indians attack Marco, the hero of the picture stampedes the cattle through the town and drives the Indians out. Lane Chandler, new Western "find" plays the Vitale cowboy, Tex Smith; Betty Bronson, the "Peter Pan" girl, is cast as Lucy Blake in her first Western picture and Fred Kohler "wolf of the screen" is the villainous half-breed, Sam.

DON'T BE A HILL-BILLY—Treat Yourself to a season ticket to one of the finest entertainments, CARBON CHAUTAUQUA.

know he is going to continue so. Messrs. Cone and Saunders lost to Hawkins and Ramsay. Also Sterling and Cone to Nash and Hawkins. However take it all the way through the players took games in good part and real sportsmanship was shown. The only regret is that these were no ladies games, but wait until next game and we will be able to overcome that. Seeding is about completed here. The recent storm is reported AI and everyone is looking forward to another bounteous year.

Mr. A. Voys is back again from his trip to Lacombe. He made the trip in fair time and his wife returned with him.

J. W. Burns has about completed the addition to his house. Material was supplied by the Atlas Lumber Co.

Mr. A. Poile has just completed the new addition to his house.

Science in Service of Mankind

When the real story of human progress is told, probably the salient contribution credited to the present generation will be the alliance of science with pursuits of peace and the mobilization of scientific minds for the common good.

This generation, more than any previous generation in human history perhaps, has effected a divorce of science from war. In the past, the best scientific minds were directed to the chemistry and physics of warfare, industry and commerce for the most part having to content themselves with the second-best or rely upon adaptation of some invention or process originally devoted to war.

That is a broad generalization which, in the specific case may not be true, but which, in the main, can be substantiated; and the fact remains that war has been the great stimulus to scientific research and invention and, until the present generation, a greater stimulus than industry, commerce and the pursuits of peace. It might also be said that science in its first alliance with industry and commerce had a background of war—of economic war. Now, however, the science laboratory is a workshop, in the true sense of the word.

Illustrative of this idea is the little country of Denmark, where agriculture has reached a scientific plane higher than in any other country. The great stimulus to scientific agriculture in Denmark was war. Following the war with Germany, in which Denmark lost the provinces of Schleswig and Holstein, the Danes turned their attention to the intensive cultivation of their very limited resources recognizing that, only by high commercial development of these resources, could they hope to survive as a people, and Denmark as a nation. That they have succeeded is proved by the fact that agricultural countries now look to Denmark for leadership and guidance in certain advanced phases of agriculture.

The aeroplane, too, now occupying a supremely important role in the development of Canada's remoter areas and great mineral-bearing zones, and serving to "devour distances" which hitherto occupied weeks, sometimes months, of arduous and hazardous travel, made its greatest advancement during the hectic days of the World War. There was less material difference between the original Wright aeroplane, or the plane in which Blériot first crossed the English Channel, and the planes used in the early days of the war, than between the planes of 1914 and those which patrolled the front areas in the days immediately preceding the Armistice. That process of development which gathered so much impetus throughout the war, has been carried into this post-war period, a fact which is abundantly manifest.

The World War saw a general mobilization of science not only in Germany where, for some years previously, industrial research had been encouraged in that country's efforts to wage successful economic war against its rival neighbors, but also in and throughout the British Empire and the United States. There was no demobilization of the forces of science after the war in these countries. There was imperative need of retaining the best scientific minds available in the work of reconstruction, and of meeting competition in world trade. Science thus has come into its own.

Canada came late into the movement, but having entered, is now displaying the energy and enthusiasm characteristic of its youth and growing power. With agriculture as the basic industry of the country, it is natural that the mobilization of science in Canada should be directed in large measure to the advancement of that industry. Within this movement, the chemist has turned his attention to the milling qualities of wheat. The biologist is studying the theory of breeding crosses of the different kinds of wheat, the causes and remedies of plant diseases, the insect pests and their control. The physicist has begun to investigate soil temperatures and the engineer to consider power problems, water supply and waste in farm houses. The economists have concentrated on marketing problems, and so on.

Noteworthy already have been the achievements of the scientists at work in the Dominion Rust Research Laboratory, at Winnipeg. The progress already made toward the production of a rust-resistant wheat that will meet requirements as to milling and yield, have been so impressive as to presage an epoch-marking development in the near future.

Canada's Largest Organ

Installation of the Royal York Hotel Casavant organ, the largest in the Dominion, has begun after months of preparation made for it. It was made in the world-famous workshops at St. Hyacinthe, Quebec, and its parts conveyed to Toronto in five railway cars.

Canadian Graphite

Canadian graphite is marketed as refined flake, the product of concentration of disseminated ore. The mines and mills are situated in the Perth, Bancroft and Calabogie districts in Ontario, and in the Buckingham, Guenette, and St. Remi districts in Quebec.

Guard Against FLU — Sore Throat The First Warning.

Few families will escape. This epidemic constitutes a real danger. Health authorities everywhere warn the public of the danger of the common cold. "Flu" usually starts with Sore Throat. Unless the germs are killed by some antiseptic treatment a serious malady may develop.

A simple treatment is to gargle the throat three times daily with Nerville. The antiseptic properties of Nerville quickly destroy the germs in the throat. Of course if the chest is sore Nerville should be rubbed over the affected area—lots of rubbing—it can't burn a blister, but will bring out the congestion and break up the cold.

To prevent "Flu" or colds from gaining headway Nerville will prove most effective. It is hardly necessary to point out that the bowels should be stimulated, and the system purged of all waste materials. For this purpose Dr. Hamilton's Pills are recommended. They act without griping or discomfort of any kind. This combination treatment of Nerville and Dr. Hamilton's Pills will prove a very satisfactory prevention for Grippe, Flu, etc.

A Big Business

Postal Department In Canada Handles Millions Every Year

Rural routes have been extended and the inauguration of the air mail service has made it possible to deliver mail in the winter time to many isolated spots which have never before received mail during that season; thus bringing comfort to the people of the Magdalen Islands, the north shore of the St. Lawrence River, northern sections throughout the Mackenzie River district, Cold Lake, Flin Flon and north to the Yukon. The postal department has some 38,750 employees in the Dominion of Canada. Of these, between 12,000 and 13,000 are postmasters. The department handles resources of revenue somewhere in the neighborhood of \$50,000,000, approximately \$50 for every person in Canada in one year.

DO YOU VALUE HEALTH?

Sickness Almost Always Due To Weak, Watery Blood

If your health is poor; if you are pale, nervous and easily tired; if you suffer from headaches or backaches; if there are touches of indigestion, or twinges of rheumatism, you may depend upon it that these symptoms come from an impoverished condition of the blood, and that unless this condition is remedied a complete breakdown may follow. To any who are in this condition, Dr. Williams' Pink Pills will be found the perfect medicine. The whole mission of this medicine is to build up the blood, promote appetite and good digestion, and strengthen tired, frayed nerves. Men and women alike benefit through the use of this medicine. Therefore if you are weak or ailing, give Dr. Williams' Pink Pills a fair trial and you will be pleased with the beneficial results that will speedily follow.

Among the thousands who have found Dr. Williams' Pink Pills a real blessing is Mrs. Geo. M. Andrews, Halifax, N.S., who says:—"My first experience with Dr. Williams' Pink Pills was as an anaemic young girl, when they completely restored my health. Then a few years ago I became pale and run down, and my husband got a supply of the pills for me. I gave them a good trial and when my baby was born she was a big healthy baby and I did not have a day's sickness. My friends all tell me how well I look and I certainly feel that way, and I give all the credit to Dr. Williams' Pink Pills. I hope my experience will help some other woman who needs a good medicine."

You can get the pills from your druggist, or by mail at 50 cents a box from The Williams' Medicine Co., Brockville, Ont.

A leading authority on steel has stated that the world loses \$2,500,000,000 yearly due to the corrosion of steel.

Miller's Worm Powders not only make the infantile system untenable for worms, but by their action on the stomach, liver and bowels they correct such troubles as lack of appetite, biliousness and other internal disorders that the worms create. Children thrive upon them and no matter what condition their worm-infested stomachs may be in, they will show improvement as soon as the treatment begins.

Melting of the Antarctic ice cap, according to an Australian scientist, would raise the levels of the oceans by fifty feet.

Cheapest Of All Oils.—Considering the qualities of Dr. Thomas' Eclectic Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast and all country merchants keep it for sale. So, being easily procurable and extremely moderate in price, no one should be without a bottle of it.

Women Archaeologists

This archaeological season in Palestine shows a new feature of social interest. For the first time archaeological excavations are being carried on by a staff of women. This plan has been initiated by the British School of Archaeology, Jerusalem, which sent a party consisting of Miss Garrod, Miss Eubank, of Cambridge; Miss Kitson Clark, of Oxford, and one American woman to continue the work near Athlit, South Haifa. The direction is in charge of Miss Garrod.

Work joined with courage enables us to overcome all obstacles.

Neuralgia succumbs to Minard's Liniment.

The Wonders Of Chemistry

Will Be Used To Build and Change Character Is Prediction

The American Chemical Society, meeting at Columbus, Ohio, held out a few alluring prospects for the future.

For instance, the time may be coming when a man won't have to build his own character, but can depend on chemistry to do it for him.

Then persons owing cows, if they're fortunate enough to have a little woodland, will have the cow-food problem solved for all time because cows will eat wood.

Wood, chemically treated, is already being used for cow-fodder in some countries, according to C. L. Esselen, Boston chemical engineer, who addressed the society.

Dr. J. S. Matthews, of the University of Wisconsin, predicted that chemistry would be used to change and build character and in this connection he believes the insane will be made well and that the seasoned criminal will become a law-abiding citizen.

Future generations may be giants, one chemist said, if scientists can discover, by synthesis, the cause of growth which lies hidden in the cell nuclei. The discovery, he said he believed, would hinge upon the balance of atoms.

No matter how deep-rooted the corn may be, it must yield to Hollo-way's Corn Remover if used as directed.

The prairie provinces with manufactured products during last year valued at \$227,000,000 begin to have tall chimneys of their own.

Many a man learns to shift for himself when he buys his first car.

Origin Of National Anthem

Is One Musical Mystery Nobody Has Solved Yet

The origin of the British National Anthem is a musical mystery which has never been solved. It is known that it was first sung in public at Drury Lane and Covent Garden in 1745, when the news of the defeat of Sir John Cope's army at Prestonpas reached London. But it was written a few years earlier than this. One thing students of the subject are fairly sure about is that it was written as a national prayer for the safety of George II. against the Jacobites, and the version given in the "Gentleman's Magazine" in 1745, makes it peculiarly applicable to the fervent prayer of today, though for a very different reason.

Could Hardly Live For Asthma. writes one man who after years of suffering, has found complete relief through Dr. J. D. Kellogg's Asthma Remedy. Now he knows how needless has been his suffering. This matchless remedy gives sure help to all afflicted with asthma. Inhaled as smoke or vapor it brings the help so long needed. Every dealer has it or can get it for you from his wholesaler.

Altitude Of Banff

Banff, the headquarters of Banff national park, Alberta, has an altitude of 4,538 feet above sea level and enjoys a climate which is in many respects, ideal. The air is exceedingly pure and has a most exhilarating effect.

EXPLOSION IN HOSPITAL TAKES A HEAVY TOLL

Cleveland.—Poison gas and two explosion which followed burning of X-ray films in the Cleveland Clinic claimed nearly 100 lives.

There were 98 known dead, and hospital authorities worked desperately to administer artificial respiration to 43 more who were overcome. Victims from the disaster were dying at short intervals, and physicians sent out appeals for additional oxygen for fear that the supply in the city might prove insufficient.

Nearly all the deaths were attributed to the deadly gas which filtered through the four-storey brick building—slowly at first, and then augmented by a second and greater explosion than the first, rushed up from the basement and cut off escape down the stairways and elevators.

It was ironic that the disaster occurred in a very place where the most advanced instruments and laboratories of science had been turned against pain and death. The clinic was owned principally by Dr. Geo. W. Crile, nationally-known physician, who was too occupied with relief work to comment on the catastrophe.

Identity of the powerful gas which wrought one of the worst tragedies in the history of the city had not been determined.

It is probable, however, it was a mixture of gasses coming from many forms of chemicals in the building. In addition, the burning films gave off a gas said to be bromide.

Although doctors and nurses got out a few patients at the start hardly a minute went, by before the fumes filtered out from every opening, forcing rescuers back. When the gas began to lift, they rushed into a scene of shrieking horror.

Bodies littered the floor like flies that had been sprayed with poison. Some of them were scarred by flames, their clothing still smouldering. Others who had not lost consciousness were crying out in agony.

Among the most pitiful sights of the disaster were suffering patients who in agony dragged themselves to windows seeking fresh air, and who were too weak to break the glass to get it. They clawed their hair and shrieked, but their voices were drowned out by other noises. For a moment they stood at the windows beating helplessly, then slid down to the floor out of sight to die in horrible fear.

The Cleveland Clinic is a separate building from the Cleveland Hospital. The Clinic, a four-storey building, houses many laboratories of physicians, and the death toll was from both the staff and patients who come for consultations.

Will Tour Western Canada

New Head Of Salvation Army To Make Visit Next Fall

Toronto.—General Edward J. Higgins, recently chosen head of the Salvation Army, in succession to General Bramwell Booth, will tour western Canada in the course of his first visit to the Dominion next fall.

Accompanied by his wife, he will arrive at Montreal on August 20, and after visiting a number of eastern centres, will proceed west. His western itinerary, however, has not yet been planned.

General Higgins will attend the National Congress of the Salvation Army in Canada, to be held from October 11 to 15, inclusive.

Shares For Workers

Chicago, Ill.—The Standard Oil Company of Indiana announced the distribution among 15,000 employees of 250,000 shares of company stock worth approximately \$14,400,000. The employees purchased the stock in instalments over a three year period, earning an average profit of 125 per cent, the announcement said.

Noble Appeals

Prague.—Umberto Nobile, commander of the dirigible Italia on the ill-fated Arctic cruise, has appealed to Mussolini for a ruling on his demotion.

W. N. U. 1786

Urges Outlets For Peace River Country

Railway Would Lengthen MacKenzie River Season Says General McRae

Ottawa, Ont.—Construction of railway outlets for the Peace River country from the Mackenzie River to Vancouver, through Peace Pass, which is claimed would increase the present season on the Mackenzie to the Arctic from two and one-half, to four and one-half months, was advocated in the House by General A. D. McRae, Conservative, Vancouver North.

The railway, as advocated by General McRae, would be joined in its course by the present railway from Peace River Crossing and Edmonton and would meet the MacKenzie River somewhere below Great Slave Lake in the vicinity of Fort Providence. It would give, General McRae estimated, a 40-hour rail service from Edmonton to that point. This would compare with the present "infrequent boat journey of eight days downstream and 12 days return, and that for a limited time each year.

"The railway, by missing all boat delays due to ice in Great Slave Lake in the spring, would make it possible," he declared, "to reach the MacKenzie River six weeks earlier in the spring and two weeks later in the fall, increasing the present season on the MacKenzie to the Arctic from two-and-one-half to four-and-one-half months, thus opening up a new Arctic for us."

With such a railway line the MacKenzie River season would be from May 15 to early in October, General McRae stated.

Ask Higher Duty On Eggs

Poultrymen Have Made Application To Tariff Advisory Board

Ottawa.—For the first time on the records of the tariff advisory board, the western provinces have produced an application for an increase in duty.

There are 40,000 poultry men of the western provinces and many more from Ontario, as well as more than 2,000 merchants from British Columbia and the prairies in sympathy with the application placed before the tariff advisory board recently for 200 per cent. increase of duty on imported eggs.

The increase asked in the applications is from 3 cents to 9 cents on every dozen of eggs brought into Canada in the "extras" class. The item probably affects more individual producers than any other which has ever come to the attention of the commissioners.

Parliament Will Sit On Wednesday Evenings

To Put Through Balance Of Session's Business Without Delay

Ottawa.—Prorogation of parliament begins to loom on the horizon. With a view to expediting the remainder of the work of the session, Premier W. L. Mackenzie King has given formal notice on the order paper of the House of a motion for the Commons to sit on every Wednesday evening, beginning at once.

The usual practice is for a six o'clock adjournment each Wednesday evening, but towards the end of each session Wednesday night sittings are introduced for the purpose of putting through the balance of the session's business with as little delay as possible.

Phillips To Retain Post

Ottawa.—Hon. William Phillips, first United States minister to Canada, will continue here during the Hoover administration. Mr. Phillips returned from Washington where he conferred with President Hoover, and Henry L. Stimson, Secretary of State. There was no indication, he said, that there would be any change of representation in Canada.

Postal Bill

Ottawa.—The House of Commons gave second reading to the bill which provides for adjustment of salaries of the postal employees who participated in the Winnipeg strike of 1919 and were subsequently re-employed at reduced wages. The bill now stands for third reading.

PRESIDES AT NEWSPAPER GATHERING

Henri Gagnon, president of the Canadian Daily Newspapers' Association, who presided at the tenth annual meeting of that organization.

All-Canada Telephone Line

Plan Would Link Up East and West On All-Canada System

Edmonton.—Planning an all-Canadian telephone line between east and west, which might be in operation this summer, prominent telephone company officials arrived in the city for a conference with the provincial government. In the party are H. L. Harris, executive vice-president of the Associated Telephone and Telegraph Co., Chicago; W. N. Curtis, vice-president and general sales manager of the Automatic Electric Co., Inc., Chicago, who are accompanied by G. H. Halse, chairman of the British Columbia Telephone Board.

At present Alberta and British Columbia are the only two provinces that have inter-provincial telephone service. Now it is planned to link up all the provinces so calls can be handled on an all Canadian line without having to utilize services in the United States.

After leaving here the officials will confer with the governments in Saskatchewan and Manitoba. Mr. Halse will go on to Ottawa, while the others will return to Chicago.

Pay Fines On Instalments

Bill Before Senate Would Amend Criminal Code

Ottawa.—A bill sponsored by Senator Beaubien amending the criminal code so as to provide that fines may be paid on the instalment plan, was given third reading in the Senate.

The Senator pointed out that there were 220,000 people convicted and fined last year in Canada. Of these 40,500 paid and the remainder went to jail. He thought it unfair to brand as jail birds many who were unable to pay their fines.

Deer Permit Petting

This photograph is submitted by W. E. Round, of Banff, Alberta, as evidence of what protection does in the way of overcoming timidity. These deer, native to Banff National Park, will use either back door or front when visiting and now have so much misgued confidence in humanity that they allow themselves to be petted.

Feed Grain For Poultry

Alberta Wheat Pool To Assist Poultry Raisers Of B.C.

Vancouver.—With the object of supplying British Columbia poultry farmers with feed grain at prices lower than those now charged, the Alberta Wheat Pool is turning its attention to this phase of marketing and is expected to institute a service which will benefit the poultry industry, particularly in the Fraser River Valley.

This makes the gist of an announcement made by G. G. McGeer, K.C., before the Saskatchewan Royal Grain Enquiry Commission. The sitting was devoted to the hearing of witnesses from among British Columbia poultry raisers. Mr. McGeer intimated that he would call witnesses to bear out his announcement regarding the plans of the Wheat Pool.

Two farmers who had retired from the prairies to raise poultry in the Fraser Valley, painted a gloomy picture of present conditions in the industry. They agreed that without cheaper feed British Columbia farmers faced ruin.

Would Cost Forty Million

Charter Being Asked For Manitoba Line To Hudson Bay

Winnipeg.—Approximate cost of the proposed Emerson-Churchill Colonization Railway, which would act as a feeder to other railways and bring Winnipeg 260 miles nearer Churchill, terminus of the Hudson Bay Railway, is \$40,000,000, Charles F. Gray and Fred C. Hamilton, directors of the company seeking a charter for its construction from the Manitoba government, told members of the law amendments committee at a special session held here.

The committee ordered the bill reported to the legislature with an amendment providing that construction be commenced within three years and completion of the line in seven years.

The line would be constructed from Emerson, 60 miles from Winnipeg on the Manitoba-Minnesota boundary.

Coal Rates From Alberta

Edmonton.—Coal from Alberta mines will move to Ontario at the special freight rate for the same period in 1930 as this year. A. Chard, freight traffic supervisor for the province, has received notice from the Canadian Railway Board, of an order setting January 15 to July 15 as the coal movement season for next year, thus continuing the present arrangement for one year more.

Celebrated Liberation

Sofia, Bulgaria.—Tens of thousands of Bulgarians from the most remote towns and villages of this little kingdom were on a pilgrimage here May 15, to participate in the fiftieth anniversary of Bulgaria's liberation from secular Turkish rule.

KING GEORGE RETURNS TO WINDSOR CASTLE

Windsor, Eng.—The King came back to his own friends in this ancient home of British sovereigns like a conquering hero.

All Windsor and the surrounding countryside were out to welcome their monarch back after his long illness, which for many weary months had kept him from them.

Windsor was decorated as seldom before. Not a single house or shop on Castle Hill or in the main street of the city was without gay decorations.

The King, accompanied by Queen Mary, had a remarkable reception throughout their 24 hours' trip from Craigwell House, near Bognor, where the King had spent several months of convalescence. But it remained for the "old home town" to outdo all the others as it welcomed again its most prominent resident.

Thousands of cheering spectators, including two thousand school children and one thousand Eton boys in silk hats and quaint jackets lined the ancient thoroughfare. As the royal car drove through, bags of rose petals were emptied from windows and fell in a crimson cascade about the machine.

It was the first time most of the inhabitants of Windsor had seen the King since the beginning of his illness late last year. All along the line there arose cries of "God bless your majesties!" and "Welcome home!"

The King and Queen were smiling happily as they bowed towards the white sea of fluttering handkerchiefs and once or twice the Queen brushed moisture from her eyes.

At the bottom of Castle Hill, which rises steeply up towards the ancient grey stone pile, were waiting the mayor in his golden chains of office with his aldermen. The royal car halted and the door near which the King was sitting swung open. His smiling face appeared and he grasped the hand of the mayor as he said:

"Thanks very much. We are pleased to be back in Windsor and I am very glad to see so many citizens here."

The King shook hands with the rest of the delegation and the car then swung up the hill towards home.

It was officially stated at the castle that the King bore the journey well and that His Majesty showed no signs of undue fatigue. Soon after arriving at the castle the King and Queen lunched together.

Announcement has been made recently that Queen Mary would hold courts at Buckingham Palace on June 26 and 27.

Honorary Degrees

Five Degrees To Be Conferred By University Of Manitoba

Winnipeg.—Five degrees of doctor of laws, honoris causa, will be conferred by the University to the list prepared by university officials.

Those who will receive the honorary degree are: Henry Mark Ami, director of Canadian school of pre-history in France; David M. Duncan, superintendent of schools, Winnipeg; Rev. R. G. MacBeth, pastor of St. Paul's Presbyterian Church, Vancouver; Chester Martin, professor of history, University of Manitoba; Walter C. Murray, president, University of Saskatchewan.

Death Of Pioneer

Winnipeg, Man.—William Elliott Macara, K.C., 70, registrar-general of Manitoba, and pioneer of the province, died at his home here, May 15. He had been ill for several months. Mr. Macara was born in London, Ontario, and he came west in 1882. He had been connected with the land titles office here for more than 42 years. Mrs. Macara survives.

Cruiser At Victoria

Victoria.—H.M.S. Colombo has arrived at Esquimalt naval base here from Bermuda in command of Captain C. C. Dodson, D.S.O. The cruiser will remain in British Columbia waters until August.

CHAUTAUQUA PUBLICITY

No doubt many have wondered why
we devote so much publicity to the
Carbon Chautauqua through the col-
umns of the paper. We have boosted
it in past years for all it is worth, and
that is ascertained, but the results in
the past have been remarkable and
we hope that they will be even greater
this year. The main reason for our
motive is that we believe that the Can-
adian Chautauqua is doing one of the
finest bits of educational work in the
Dominion of Canada, offering, as it
does, a varied program of plays, mus-
ical selections, lectures, etc., which
are equal to the best on the continent

and at the same time the admission
charge is cut to a minimum, allowing
nearly everyone to take in the per-
formances. If it were not for Chau-
tauqua most of us would not have a
chance in the world to be able to see
such wonderful programs, and should
we be in a city where we could see or
hear the performances we could not
afford the price of a single admission,
which would be anywhere from \$2.50
per seat up. It is only through the
united effort of Chautauqua that they
can offer such a program to the pub-
lic for such a small admission charge.
Chautauqua is a great benefactor to
the community life and should receive
the support of everyone—BOOST FOR
CHAUTAUQUA BY BUYING YOUR
SEASON TICKET NOW.

**How the Printer's Devil
Won That Designation**

In the early days of printing this
art was much of a mystery and ignor-
ant people thought the printer evoked
the aid of the powers of evil. Aldus
Manutius, the famous Italian printer
of the sixteenth century, went to Af-
rica on an exploring expedition and
brought back with him a very black
negro boy. Negroes were a rarity in
Italy then. The report immediately
gained circulation that the printer had
been employing the black art in his
work, and that the piccanniny was
in reality an imp of Satan. He was
called the "Little Black Devil." The
charge became so serious that the
printer was forced to exhibit in pub-
lic. In his announcement he said:
"Be it known to Venice that I, Al-
dus Manutius, printer of the Holy
Church and to the Doge, have this day
made public exposure of the Printer's
Devil. All those who think he is not
flesh and blood may come and pinch
him." Thus originated the term "prin-
ter's devil."

Damsel—Why does a small cavity
feel so large to the tongue.
Dentist—Just the natural tendency
of your tongue to exaggerate, I sup-
pose.

BANK OF MONTREAL
Established 1817

"A Bank where small accounts are welcome"

Snicklefritz -----

Irate father: I can see right through that chorus girl's intrigue.
Lovesick son: I know, dad, but they all dress that way nowadays.

"I'd like to get a lawn mower."
"I'm sorry, we haven't any."
"Well, this is a fine drug store."

Don't worry if your rank is low;
And your marks are few.
Remember that the mighty oak
Was once a NUT like YOU.

Mildred (Jelly): And shall I return the engagement ring?
Frank: Oh, no, not necessarily, I can have the next installment notice sent to you.

Traffic Cop—Let me see your license.
Tourist: Marriage, Car, driver's, fishing, camper's or hunting? Open the license trunk, Maria.

Dad (severely): "And, look here, Ethel, you mustn't encourage that young man to stay so late every night. What does your mother say about it?"

Ethel: "She says men haven't altered a bit, Dad."

Two daddies were under a tree in a thunder shower.

"Julius, can you pray?"
"No, Sam, ah nebber prayed is my life."

"Well, can you sing a hymn?"
"No, Sam, don't know no hymn."
Well, see heah, Julius, sumthin' glorious has got to be done mighty sudden. S'pose you pass rous' the contribution box."

The community of globe trotters who made a circuit of the globe during the winter aboard the Canadian Pacific liner Empress of Australia contributed a series of remarkable items to the social notes of the New York newspapers when their vessel terminated her voyage there. An engagement, a marriage, and the birth of five children to a Japanese passenger were announced, constituting in the opinion of Captain Latta, commander of the cruise ship, something hitherto unrecorded in seafaring annals. The five Japanese babies were appropriately named the "Empress of Australia," "Empress of Scotland," "Empress of France," "Empress of Canada," and "Empress of Russia," after the giants of the Canadian Pacific fleet. The babies were canaries.

D. C. Coleman, vice-president of western lines of the Canadian Pacific Railway, has been elected a director of the Metropolitan Life Insurance Company of New York. The only other Canadian director is Hon. L. A. Taschereau, Premier of the Province of Quebec.

A tunnel built at a cost of \$250,000 makes it now possible for trains from North Vancouver to connect with the Canadian Pacific Transcontinental system. The first train making use of this new connecting link that also makes use of the second narrows bridge and the harbour rail system, carried the Governor-General and many distinguished westerners.

Funerals and weddings can hold no terrors for Captain Frank Middleton, of the Canadian Pacific ship "Alberta," who has been presented with no less than three top hats. As captain in charge of the vessel entering the ports of Sault Ste. Marie, Port McNicoll and Fort William for the first time this season, opening navigation at each point, he was given the traditional welcoming address and presented with a silk hat on each occasion. His three shining toppers repose in a neat row in his cabin and it is estimated that it will take three hundred years to wear them all out.

"Good evening, my young friend, are you attending a place of worship?" asked the minister when he met a young fellow on the street on a Sunday evening. "Yes, indeed, sir," the young man replied, "I'm on my way to see her now."

"What is your name?" asked the mistress of the house.
"Chong Fing Wook," was the prospective cook's reply.

"My, that's altogether too much to remember. I'll call you John."

The Chinese, boy slightly inclining his head, seemed to express agreement with the proposition. And then asked: "What you name?"

My name is Mevrouw van der Hildenden Langehuizen," graciously replied the lady.

"Oh, too long," said the cook's comment. "I call you Charlie."

C.P.R. Branch Lines

Heavy Programme Of Extension For the Season Of 1929

Under its policy of development and expansion, the Canadian Pacific Railway has already this season let contracts for 286 miles of branch lines construction in Western Canada, according to D. C. Coleman, vice-president, western lines. This figure was reached following the announcement of four additional contracts totalling 112 miles, and it is expected that when the contracts for the newly authorized Lanigan-Prince Albert branch are let, that the construction programme for the season of 1929 will call for slightly more than 400 miles. Work on these contracts will be commenced immediately.

Contracts announced follow: Nipawin, toward Prince Albert, 25 miles; contractor F. Mannix, of Calgary.

Kootenay-Landing to Proctor, 35 miles; contractor Dutton and Grant, of Winnipeg.

Archive to Wymark branch from Lake Johnson to Wymark, 27 miles; contractors, Riley, Reid and Sandgren, of Edmonton.

Suffield to Blackie, branch from Arrowwood to Blackie, 25 miles; contractor Tomlinson Construction Co., Ltd., of Winnipeg.

Contracts already given this spring and which call for 174 miles of construction follow:

Acme, northeasterly, 25 miles; contractor, F. Mannix, of Calgary.

Willingdon to Vegreville, 25 miles; Brooks Construction Co., Prince Albert.

Lake Alma, west, 18 miles; contractors, Riley, Reid and Sandgren, Edmonton.

Lloydminster, northeasterly, 25 miles; contractors, Rosa and Wickstrand.

Unwin, westerly, 20 miles; contractors, Rosa and Wickstrand.

Coronation, Youngstown, 41 miles; contractor, F. Mannix, of Calgary.

This company will also proceed with the Lacombe northeasterly, a distance of 20 miles. Stewart & Cameron, of Winnipeg, are the contractors.

In making the announcement Mr. Coleman stated that Royal Assent had recently been received to the legislation authorizing the construction of the branch line from Lanigan to Prince Albert, and that it was proposed to let contracts for this work at the earliest possible moment, and immediately following the acceptance of the plans by the Board of Railway Commissioners, at Ottawa. This line will be 117 miles in length and will form an important link in the western branch line system. The programme, Mr. Coleman said, indicated that the Canadian Pacific Railway was proceeding actively with its projected branch lines and, further, that it was going ahead with its plans for the opening of the northern country. This was particularly emphasized by the letting of the contract to build from Nipawin toward Prince Albert, and by the fact that during the winter the company devoted a great deal of energy to the construction of a combined highway and railroad bridge over the Saskatchewan River at Nipawin. The piers for his bridge are now in place, he stated, and the structure will be completed as soon as possible. The company's keen interest in northern development was further indicated by the announcement that the Lanigan-Prince Albert branch would be proceeded with this season. Another important line was that scheduled from Kootenay Landing to Proctor, in British Columbia. This line when completed will give an all rail southern route to the Pacific Coast. The line, a connecting link, was made necessary by the growth of traffic and will do away with the necessity of using boats on Kootenay Lake. The construction work itself will be one of the most difficult since early construction days in Western Canada as the line will be built through mountainous country. It will be necessary to put in two tunnels, one 400 feet and the other 1,000 feet, and one bridge over the Kootenay Lake at Kootenay Landing which with approaches will be 3,500 feet in length.

The branch lines on the prairies will, he stated, prove of immense value to the agricultural communities and will greatly facilitate the movement of grain to markets and manufactured commodities of the farmers and distributing centres. Negotiations with the Canadian National Railways are proceeding effecting the entrance of the Canadian Pacific Railway to Battleford and North Battleford, and negotiations for an exit for the Canadian Pacific Railway from Prince Albert northwesterly will shortly be undertaken.

Ship Muskrats To England

What is stated to be a record consignment of muskrats in one batch to the Old Country was shipped on April 16th from Lindsay to Southend-on-Sea, England, in the care of the Canadian Pacific Express Company. The rodents are to form the nucleus of another muskrat farm in England, where the industry is thriving under an increasing demand for furs.

and after I had taken six boxes I found that they had done me so much good I will gladly recommend them to all those who are troubled with sleeplessness caused by their heart and nerves."

Canadian Honored

Medical Council Of London Nominates Ontario Man For Presidency

Donald Armour, M.D., C.M.G., F.R.C.S., a native of Cobourg, Ont., has been signally honored by receiving the unanimous nomination of the council of the Medical Society of London, for the presidency of the body.

Dr. Armour is a son of the late Hon. J. D. Armour, a chief justice of Ontario. His election will mark the first occasion upon which a graduate of an overseas university has held the office of president of the historic British society.

BABY'S OWN TABLETS

WIN GREAT PRAISE

Many Mothers Always Keep Them In the House

Thousands of mothers state that they know of no other medicine for little ones to equal Baby's Own Tablets—that they always keep the Tablets in the home as a preventive of childhood ailments, or if sickness does suddenly grip their little ones they feel safe with such a remedy at hand.

Concerning the use of the Tablets, Mrs. Donat Plouffe, Tingwick, Que., writes:—"I have nothing but praise for Baby's Own Tablets. They are the only medicine I have ever given my two little ones and I am glad to state that the Tablets have always kept them in perfect health. I feel so safe with the Tablets that I always keep a box in the house."

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels, sweeten the stomach and thus banish constipation and indigestion; break up colds and simple fever and make the cutting of teeth painless. The Tablets are absolutely safe, being guaranteed free from all injurious drugs. They are sold by all medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Good Lamb Crop

Southern Alberta flock owners are harvesting one of the best lamb crops in years, it was revealed at the annual meeting of the Southern Alberta Sheep Breeders' Association at Lethbridge, Alta., recently.

As a vermicide an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

How many people do you know who are spending money they have not yet earned for things they don't need to impress people they don't like.

Heart Palpitated Nerves Bothered Her Sleep Was Broken

Mrs. Fred A. Pugsley, East Southamton, N.S., writes—"I was bothered very much with my nerves and palpitation of the heart, and my sleep was broken at night. I decided to try

Price 50c. per box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

SUNDAY SCHOOL LESSON

MAY 26

GOD'S LAW IN THE HEART

Golden Text: "Thy word have I laid up in my heart, that I might not sin against Thee."—Psalm 119:11.

Lesson: Jeremiah 31:1-40; John 1:17; Hebrews 8:7-13.

Devotional Reading: Psalm 119:9-16.

Explanations and Comments

Individual Responsibility For Sin, Jeremiah 31:29.—There was an old saying among the Jews that the fathers have eaten sour grapes, and the children's teeth are on edge. The proverb puts the responsibility for the sins of one generation upon the preceding generation. In Jeremiah's day the people were complaining that they were being punished, not for their own sins but for the sins of an earlier generation. In the future, Jeremiah declared, individual responsibility would be recognized, a man would realize that he was judged for his own sins; not for those of others, and this proverb would no longer be repeated. The fathers had sinned, but the children had sinned, too, and the children would be held responsible for their own sins. To express this, Jeremiah amended the proverb to read, "Every man that eateth the sour grapes his teeth shall be set on edge."

Most people like to lay the blame for their misfortune or faults upon anyone or anything rather than upon themselves. It is the fault of circumstances that they are not more successful in life. It is their unfortunate heredity that has made their character what it is. Some one else to bear the blame is "a long-felt want" of humanity. Jeremiah placed the blame where it usually belongs.

In our soul God is constantly speaking to us—He warns us against evil. He exhorts and encourages us to good. Suppose a boy has done another a bad turn. The one who has been wronged has been brooding over his wrongs, when suddenly he learns something about his companion, the knowledge of which by others will do him immense harm. He will have his revenge, he thinks; but while he is comforting himself in this way, a voice is heard, soft but most persistent, saying to him: "It is a mean thing that which you have in mind to do, it is a cruel thing; don't return blow for blow, leave him to his thoughts, keep your own unstained." That is the voice of God.

Perhaps you are out somewhere bent upon your own amusement, when you see some sad accident happen. Your first impulse, after you have gratified your curiosity, is to go after your pleasure, shut from your mind the thought of the sufferings of others, and just follow the rule of "everybody for himself." But then you hear a voice saying: "What are the pleasures you give up compared with the suffering you might help to relieve? Come, make some sacrifice for the good of others, and don't think all your time misspent because it isn't spent upon yourself." That, too, is the voice of God in your soul, urging you on to be unselfish and merciful.—Simeon Singer.

Yet still there whispers the small voice within, Heard through God's silence, and o'er glory's din, Whatever creed be taught, or land be trod, Man's conscience is the oracle of God.—Byron.

Minard's Liniment relieves pain.

"Just a Slice Of Ham"

But With New Flavor

"They all said they weren't hungry—but look at the platter!" That's how it goes when you cook your slice of ham in Borden's St. Charles Milk, according to the recipe below.

The mustard flavor is cooked in, and there's a suggestion of cloves, too—besides the extra-rich milk which gives every dish a superior savor and nutritive value. Be sure to use St. Charles milk—ordinary milk is too thin.

You'll be surprised how different this dish is from just plain ham.

Baked Ham With St. Charles

- 1 slice ham cut about 1 inch thick, with rim of fat.
- 1 tablespoon sugar.
- 1 cup Borden's St. Charles Milk.
- 1 teaspoon mustard.
- 1 tablespoon flour.
- ½ teaspoon ground cloves.
- ¾ cup water.

Trim off rim of fat and cut in very small pieces. Thoroughly mix flour and mustard and pat into ham. Place in rather deep pan. Mix together cloves and sugar and rub through the fat; place over top of ham. Dilute milk with water and pour over ham to cover. Bake in a moderate oven until ham is tender, about one hour. Add more milk as needed to cover ham while baking.

Minard's Liniment—good for tired feet.

The Ideal Summer Meal

Save the coupons in the carton Write for Cook Book and Premium List Connors Bros. Ltd., Black's Harbor, N. B.

LADIES WANTED TO DO PLAIN and light sewing at home, whole or spare time; good pay; work sent any distance; charges paid. Send stamp for particulars. NATIONAL MANUFACTURING CO., Montreal.

Stiffness

After strenuous activity, a rub down with Minard's Liniment will prevent aches and pains.

May Make Polar Trip

Graf Zeppelin Likely To Make Expedition Next Year

In addition to being groomed for a round-the-world trip this summer, the Graf Zeppelin is destined to show its silver sides to the white waste lands of the Arctic before another year has passed.

The International for the Exploration of the Arctic Regions by means of aircraft, has entered into a contract for the use of the big ship for an expedition from Leningrad to either Nome or Fairbanks by way of North Polar regions. The trip will take place in April or May of 1930.

Simple and Sure.—Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young and old.

The easiest way to judge some men is to discover how much they expect to be allowed on their old cars.

Every sower must one day reap from the seeds that he has sown.

It May Be Urgent

When your Children Cry for It

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infant; you have the doctors' word for that! It is a vegetable product and you could use it every day. But it's in an emergency that Castoria means most. Some night when constipation must be relieved—or colic pains—or other suffering. Never be without it; some mothers keep an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

THE CRIMSON WEST

— BY —
ALEX. PHILIP

Published by Special Arrangement
With Thomas Allen, Publisher,
Toronto, Ont.

As dusk fell over lake and mountain, Donald returned from Wainwright's cabin. Andy glanced up expectantly as his friend appeared, but quickly averted his face as he saw Donald's features. Donald sank disconsolately to a seat outside the kitchen door. He had found Wainwright alone and wondered if Connie had purposely absented herself. Her treatment of him since her return puzzled him sorely and had filled him with a great despondency. As he rose and walked toward his cabin, Andy gazed after the retreating figure, eyes filled with compassion, then turned to speak to one of his helpers in such an irritable tone that the flunkey's mouth opened in astonishment.

For three evenings it was the same. Donald failed to find Connie at home; nor did she come to the mill. He regretfully decided that it was no coincidence, but that she was deliberately avoiding him.

On a Sunday afternoon Andy saw Donald gaze yearningly toward the bluff, then turn up the trail leading to the dam.

At Donald's request Gillis had diverted logging operations to circle the little oasis in the heavy timber, so that Connie's sylvan glade still held its primeval charm and beauty.

Donald stood for a moment gazing reflectively into the white foam at the foot of the tiny cataract, then threw himself on the soft bed of moss and closed his eyes. But this

Illness Kept Her From Work

"I took Lydia E. Pinkham's Vegetable Compound because I was so sick every month that I had to keep my bed for two days and I suffered so that I felt badly all the time. I had been working in a factory but for a long time was not able to work as I was so run-down and nervous. My friends told me of the Vegetable Compound. I am now sound and well and have gone back to work. I have a good appetite, my color is good and I am in good spirits."—
Evelyn Bourque, 132 Alma Street, Moncton, New Brunswick.

time the fairy spot did not bring the usual delicious languor to his harassed spirit. Birds sang as sweetly; flowers filled the air with the same odour; the wind sighed as softly through the tree-tops, and the small brook still sang its rippling song. The rapid tattoo of a woodpecker's bill on a hollow tree jarred his nerves and he tossed restlessly.

A cedar tip floated through the air. Blown by the wind, it fluttered in circles, then gently on the hands lying on his chest. His eyes opened, then, with trembling limbs, he came to his feet.

Connie, clad in faded overalls and cotton shirt, stood on the edge of the "nest." Her breast was heaving, her loosened golden hair flying in the wind. The softness in her blue eyes made Donald gasp, and his heart thumped as though it were in his throat.

"Connie!" he cried huskily, "I love you, dear! Don't you care for me a little?"

She sprang lightly to the ground and came toward him, her arms outstretched. Tears of joy coursed down her cheeks. "Oh, Donald, Donald, you big stupid!" she sobbed, "I have been waiting here for you every day. I—I have loved you always."

With a shock of incredible rapture Donald gathered her in his strong arms, where she cuddled like a weeping child. He kissed her red lips, her eyes, hair and throbbing throat. "My little Connie," he said, in a voice vibrant with feeling, "do you really love me?" He pressed his cheek to hers and felt the flutter of her long lashes as she pressed the softness of her own closer. The quick, exquisite indrawing of her sobbing breath were lovely answering things, and he thrilled to hear her whisper: "Yes, Donald! Yes, Donald!"

Andy came walking meditatively up the path, his hands clasped behind him, his blond head bowed in deep thought. Not finding Donald at the dam, he walked up the hill to enter the meadow just as Donald clasped Connie in his arms. For an instant the little Australian stood rigid, his eyes bulging, then retreated hastily to the shelter of the trees. Any one seeing Andy at that moment would have thought him suddenly gone mad. He whirled about in a wild dance, hugging himself in an ecstasy of joy. Ceasing his mad gyrations, he dashed his hand across his eyes and bolted like a runaway down the hill.

Gillis and his "redshirts" sat sunning themselves on the steps of the dining-room. They sprang to their feet as Andy came tearing down the hill. Breathlessly Andy told them of the scene he had witnessed. "We'll give them a blinkin' good reception when they come down," he panted. He issued several sharp orders and the men scurried happily to execute his commands.

The train that was to carry the excursionists to the Coast was being made up on the siding. While they were awaiting this, the visitors watched with curious interest the mysterious preparations being made by the loggers.

At this moment, hand in hand, Donald and Connie turned the corner of the building. As they did so they came to a sudden halt and stared at the odd scene before them. The men stood in two orderly rows. The ground between was carpeted with wildflowers, and each logger held a mass of blooms in his hand. At the far end of this lane of men stood

Andy, a wide smile on his droll face. Connie lowered her eyes in confusion. Donald shook his fist at Andy. "You little beggar! You are responsible for this."

Andy chuckled. "Come on, Donnie, be a sport," he coaxed.

With flushed faces Donald and Connie walked down the aisle, while the men pelted them with flowers. The crowd of visitors clapped their hands in appreciation of this beautiful scene. As they neared the end of the gauntlet, Andy sprang to a stump.

"Three cheers for the 'appy couple!" he yelled. A roar of cheering followed. "A tiger!" shouted Andy. And again the air trembled to the hoarse shout of brawny throats.

Donald led Connie straight to his mother. "Mother," he said bashfully, "meet your future daughter."

"Quick tears came to his mother's eyes as Donald made this announcement. "My dear," she said tenderly, as her arms folded about Connie, "you are all love and tenderness."

The train's whistle screamed its warning and the crowd moved down to the station.

"Will you be coming home to us soon, Donnie?" asked his father as he was leaving. Donald looked down at Connie.

"We'll visit you on our honeymoon, Dad," responded Donald happily. He swept his arm toward the mountains. "I could never leave this. The spell of the Great West has entered my blood."

Janet had spent the afternoon paddling idly on the lake. When she received the news of Donald's engagement she concealed the ache in her heart by an outward air of indifference. The pretence of a headache enabled her to keep in her cabin and she did not appear for dinner. She wanted to be alone with her thoughts.

When the shadows lengthened, Donald and Connie moved slowly along the path toward the bluff. As they turned a curve in the trail Janet came to the window of her cabin and stood watching them until they disappeared from sight.

Andy, sitting a few feet distant with his back against a tree, noted the look of despondency on Janet's face. He came to his feet and walk-

ed slowly toward the kitchen. "As Methusalem said through 'is whiskers, 'e who 'olds 'is 'ead too 'igh will 'it 'is blinkin' toe."

As the lovers were about to turn up the mountain trail, the trapper emerged from the woods with his old pack-horse. The cayuse was piled high with luggage.

"Where are you going, John?" queried Donald.

"I'm hittin' the trail, ol' timer," said Connie.

"Yes, I'm quittin' the country."

"Why?" questioned Donald.

"Gettin' too thickly settled. I feel that I ain't got room to breathe. I'm goin' way back into the Cariboo somewhere so's I kin be by myself."

The race of mediaeval hermits is not dead. The spirit that led the first pioneers into the forest guides others there today. There are men whose souls long for a place untamed, who yearn to breathe the wild free air. They want a home straight from the hands of the Creator, unspoiled by man. They may be trappers, who brave cold and hardships to clothe inлады in warm furs; they may be prospectors, who search out the hidden gold for others to use. Whatever they may be, these hardy men blaze the trail for others to follow.

When Donald told the trapper of the coming wedding the old man's eyes softened. "I'm glad. It's jest right. I hoped you two would git married." He shook hands gravely then clucked to his horse.

"Goodb-ye, Connie! Good-bye, ol' timer! God bless ye!" he shouted over his shoulder.

Donald and Connie stood watching the patient old figure as he trudged behind his cayuse. At a turn of the

trail he stopped and for a long interval gazed back at the log cabin by the stream, which had been his home for so many years. He waved his hand in farewell, then horse and man disappeared from view.

When Donald and Connie reached the bluff the sun had sunk in the crimson west, leaving a rich after-glow that spread across the horizon from west to east, the rich colours merging by slow degrees into that pure pearl-grey which makes the long and lovely twilight of the British Columbia mountains. Down on the lake mists were gathering, but in the upper sky and on the glaciers a vivid orange glow still lingered. The trees stood stiff and motionless in the quiet air. From afar, subdued but clear, came the hoot of a blue grouse, and from mountain gorges came the faint sighing sound of distant waterfalls. Sweet and pungent odours of wild flowers came from the woods about them. A star of silver brilliancy sparkled suddenly out in the sky over the massive snow-clad peaks.

"Venus," whispered Connie. Donald's gaze swept from the camp, nestled at their feet, to the darkening heavens, to the star of love, then down to the girl by his side.

There are moments in the lives of all men—regardless of creed or religion—when they feel the nearness of God. Such a moment came to Donald. He uttered no sound, yet his soul was crying out its great thankfulness.

Connie sensed his feeling. She bowed her head, her eyes misty with joy and gratitude. "Oh, God," she murmured softly, "we thank Thee for Thy many blessings."

THE END.

Riding abreast of the times

You expect more from your motor car today than you did ten years ago. And you get it. Greater speed, smoother power and more responsive performance are common to modern cars as a result of the development of higher speed, higher compression motors.

These improved engines demand a better oil—fuller-bodied, with greater resistance to heat and wear.

To ensure a better motor oil, Imperial Oil Limited goes all the way to Peru for the crude from which to make Marvelube. Marvelube is made from a base that is rich in all the qualities necessary for better lubrication of the modern motor. It is today the oil standard for high-speed motors from coast to coast.

Marvelube is preferred by over half a million motorists in Canada and is the choice of aircraft operators because of its superior lubricating qualities.

There is a grade of Marvelube refined to meet exactly the specifications of your car, truck or tractor. Consult the Marvelube Chart at Imperial Oil stations and dealers.

TENNIS NOTES

The Carbon Tennis Club received a
visit from the members of the Hes-
keth Tennis Club on May 19th, when
the following matches were played:

SINGLES—Bingham of Hesketh de-
feated C. H. Nash of Carbon, 6-3.

DOUBLES—Bingham and Heath of
Hesketh defeated MacDonald and Len
Poxon of Carbon 4-6, 6-3, 6-4.

Nash and Hawkins of Carbon de-
feated Sterling and O'Leary of Hesketh
6-2, 6-3.

W. Edwards and Alf Braisher of Car-
bon defeated Brown and Hunter of

Hesketh 6-3, 4-6, 12-10.

The last set provided the sensation
of the tournament. The Carbon boys
were down 5-0 at one time, but staged
an uphill battle and finally took the
set at 12-10.

A pleasant time was spent and all
are looking forward to the return
match at Hesketh.

The Mixed Doubles competition will
commence about the end of the week.
A very large entry is expected this
year.

The Carbon Tennis Club are hold-
ing a dance in the Farmers Exchange
hall tonight. Be there.

BASEBALL.

Carbon Wins From Acme

The baseball game scheduled be-
tween Rockyford and Carbon for Sun-
day afternoon was cancelled, but the
Acme boys were able to come over
and the fans turned out in good style
to witness one of the best games of
the season, as was indicated by the
score, which was 10-8 in favor of Car-
bon. The Lineups were as follows:

Acme—L. McCook, C. McLean, L.
Douglas, S. Hood, C. Smith, B. Lepty,
J. Kerns, E. McCook and L. Rinn.

Carbon—Jack Spence; E. Morfitt,
B. Ramsay, P. Wells, N. McClure, R.
Lynn, G. Ramsay, S. Hay and Billy
Galech.

PROVINCIAL TREASURY SHOWS RECORD SURPLUS

Indicating the highly satisfactory
condition of Alberta's finances, a sur-
plus of \$1,817,871 of revenue over ex-
penditure for the fiscal year ending
March 31, 1929 is announced by Hon.
R. G. Reid, Provincial Treasurer. This
gratifying total is made up of a sur-
plus of \$1,578,823 on general revenue
and \$239,048 on Provincial Telephone
System. The former amount will be
applied to reducing the debt of the
Province and the telephone surplus
will be used to reduce the debt on
that utility.

A surplus to this amount constitu-
tes a record for any year in the his-
tory of the Province and exceeds the
showing made by any province in the
Dominion in recent years. General sa-
tisfaction is expressed by members of
the Government with the sound posi-
tion of the Province's finances, this
surplus being evidence of the fact that
Alberta has turned the corner toward
better times, as well as a strong fi-
nancial vindication of the Govern-
ment's financial policies.

MORE HIGHWAY CONSTRUCTION UNDERTAKEN

Tenders have been called and will
be opened on May 22, for the second
lot of road grading contracts to be
awarded in connection with the Al-
berta Government's 1929 program of the
highway construction and improve-
ment. Included in the projects are a
25 mile section of the Edmonton-Ev-

CLASSIFIED ADS.

ansburg road from Blueberry Corner
to Seba Corner, 10 miles from the Ed-
monton-Calgary highway west of Syl-
van Lake; 26 miles on the Pincher-
Waterton Lake road and 12 miles
from Irvine to the eastern boundary
of the province. A further list of
contracts is under preparation at the
present time and announcement in
this connection will be made shortly.

ATTORNEY GENERAL TO REPRE- SENT PROVINCE OVERSEAS

Alberta will be represented by the
Attorney General, Hon. J.F. Lymburn,
when two cases from this province
are heard shortly by the Privy Coun-
cil in London. In pleading each of
these cases, Mr. Lymburn will be as-
sociated with special counsel.

ALBERTA LAND ATTRACTS AMERICAN FARMERS

One of the outstanding features of

the land sales made by the Canadian
Pacific Railway land department this
year is the large number of American
farmers who are acquiring land in Al-
berta, states O. Kirkwood, superinten-
dent of this branch. The increase in
the number of farmers settling their
holdings in the United States and tak-
ing up land in this province, accord-
ing to Mr. Kirkwood, is beyond all ex-
pectations and before the settlement
season of 1929 has closed, the influx
of settlers from the United States will
be greatly in excess of any previous
year. The majority of these farmers,
many of whom are well-to-do finan-
cially, are coming from the central
mid-western states where exhibits of
Alberta agricultural products have been
widely shown during the past few
years by the Publicity Branch of the
Alberta Department of Agriculture.

Who Does Your Printing?

All business houses need more or less printed matter, all of which
is within the possibilities of the local printer. Yet how prone
many are to pass up the home printer and let the orders go to
city offices which have no interest whatever in rural communities
except to get printing orders and the cash to pay for them. Busi-
ness men, remember that the home paper is constantly promot-
ing the interests of the home community and you owe it to your-
self and your local paper to back up these efforts by at least hav-
ing your printed matter done locally.
